

Search for God: Success for the Soul®

PURPOSES OF SEARCH FOR GOD GROUP WORK

Search for God Groups bring together individuals, who by their ASSOCIATION (groups), through their RESEARCH (application of spiritual laws), work toward the achievement of ENLIGHTENMENT (the awareness of Oneness with the Creative Forces of God).

ASSOCIATION (group work)

- ◆ Assist each individual to meditate and pray in an intelligent, practical manner – not only alone, but also in groups.
- ◆ Assist its members to know their relationship to their Creator and to become channels of love and service to others.
- ◆ Realize that group support assists us in our soul growth.
- ◆ Recognize that group leadership rests with a loving God, not with the human master, leader, guru, or teacher. Why look when the Master is within?

RESEARCH (application)

- ◆ God is eager to work with us in facing all our opportunities.
- ◆ We are here at this time because our eternal souls have a need for certain experiences in the earth plane. Those experiences are opportunities for soul growth.
- ◆ Application of spiritual laws provides a safe method for soul growth.

ENLIGHTENMENT (goal)

- ◆ Show by practical application how each one may know his or her relationship to God within self and to all humankind.
- ◆ Help each member of the group to live a balanced life, which will make each a better spouse, a better parent, a better neighbor, and a better citizen.

In this excerpt from the readings, we receive some guidance:

Let each individual, themselves, apply in their own daily live that they have contributed toward the awakening of someone through THEIR thought. So does the lesson become a LIVING example know and read of mean. So will the lessons, the studies, be given a soul, with life, that may live in the hearts and minds of others. ***Beautiful truths without personal application by the one presenting them is indeed casting pearls to [the] swine, [of oneself] and will turn again to its own wallow.***
